Chapter 1

What Is This Portal?

The Minor Project Management Portal manages the complete lifecycle of B.Tech. minor projects at IIITNR — from students forming groups and selecting a guide, through mid-term and end-term evaluations, to the final archived record of every project.

Who uses it:

- **Students** — form groups, propose projects, submit progress updates, and view their evaluation results.
- **Faculty** — review project proposals from student groups, mentor approved groups, and enter evaluation marks.
- **Admin** — manage all users, control which semester phase is active, create evaluation panels, and export data.

How a semester works (overview):

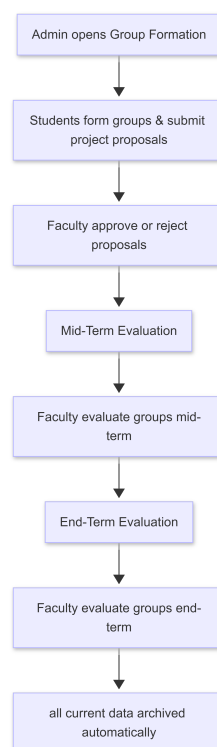

Figure 1.1: Overview of lifecycle

Chapter 2

Getting Started (All Users)

2.1 Logging In

1. Open the portal in your browser.
2. Enter your **email address** and **password**.
3. Click **Login**.

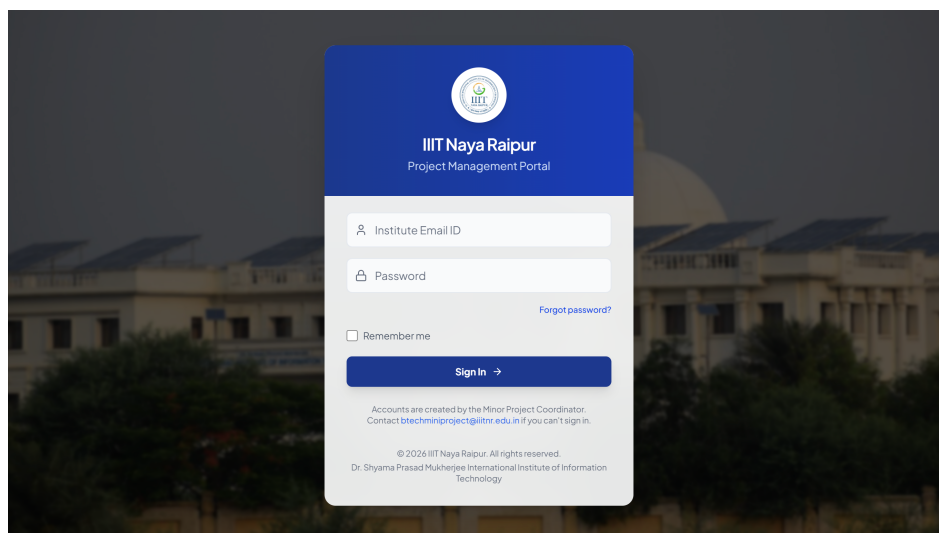

Figure 2.1: Login Page

You will be taken to your dashboard based on your role.

2.2 First-Time Login (New Accounts)

If your account was just created by the admin, you will go through two extra steps before reaching your dashboard.

Step 1 — Click on Forgot Password:

When you enter your email for the first time, a 6-digit code is sent to your email address. A box will appear on the login page asking you to enter it.

Step 2 — Set a new password:

Figure 2.3: OTP Verification

Figure 2.4: Set new password

After verification, you will be asked to set a new password. The form will show only two fields — no current password is required at this stage.

- Enter your new password — it must be **at least 6 characters**.
- Enter your new password again to confirm.
- Click **Save**.

You will then arrive at your dashboard. You will not have to do these steps again.

2.3 Changing Your Password Later

You can change your password at any time from your profile or settings menu.

1. Go to **Change Password** from the top navigation.
2. Enter your current password.
3. Enter your new password (at least 6 characters).
4. Confirm the new password.
5. Click **Save**.

2.4 Logging Out

Click **Logout** in the top navigation bar. You will be returned to the login page. For security, pressing the browser Back button after logging out will not bring you back in.
